EDUCATION

University of Information Technology - VNUHCM, Ho Chi Minh City, Vietnam 2021-2025
B.S. in Computer Science

- Graduated with an Honors Bachelor's Degree (4% acceptance rate)
- GPA: 3.42/4.0

SKILLS SUMMARY

English	TOEIC 730
Programming Languages	Python, C++, SQL
Frameworks	PyTorch, Scikit-learn, Optuna
Tools	Git, L ^A T _E X, Microsoft Office
Expertise	Statistical Machine Learning, Deep Learning, Optimization, Evolutionary Computation

RESEARCH EXPERIENCE

Research Student 2024-Present

Evolutionary Learning and Optimization (ELO) lab

- Supervisor: [Dr. Ngoc Hoang Luong](#)
- Research topics: optimization, machine learning
- Investigated **evolution strategies**, their convergence rate, and techniques to reduce computational cost. Introduced eMI-BBO for solving **mixed-integer problems**
- Explored flat minimizers and **statistical learning** theory for robust generalization
- Explored adversarial robustness from **optimal transport** perspective
- Analyze research papers, discuss key insights, and reproduce proposed methods

PUBLICATIONS

Toward Efficient Mixed-Integer Black-Box Optimization via Evolution Strategies with Plateau Handling Techniques

Tuan Anh Nguyen and Ngoc Hoang Luong
Proceedings of the Genetic and Evolutionary Computation Conference (GECCO 2025).

SELECTED PROJECTS

[[Grab](#) Tech Bootcamp] GRAVEL [[doc](#)][[source](#)] 2025

- Building a recommendation system for traveling based on textual prompts
- Tools used: LangChain, Hugging Face Transformers, MongoDB

[Course project] Sketch-based Image Retrieval System [doc] [source]	2023
• Retrieve relevant images from a 70000-image gallery based on the user's drawn sketches • Integrate CLIP-based indexing and K-means for hierarchical retrieval, reducing average search time while maintaining nearly identical accuracy • Tools used: PyTorch, CLIP, K-means, NumPy, Streamlit	

SCHOLARSHIPS & AWARDS

[UIT] UIT's Student Scientific Research Award 2025	2025
• Awarded to students with papers published in reputable conferences and journals	
[UIT] Student Research Projects	2024
• Awarded to students for outstanding research projects at UIT	
[UIT] Talent Scholarship	2021-2025
• Scholarship for honors students with strong academic performance at UIT
